Dr. Howe-Gullen,  
Tol. College 1814

Toronto, Oct-10<sup>th</sup> 1914

Dear President - Fellowes  
In pursuance to  
my query of the other  
evening, concerning  
the third year course  
in Household Science.

The confusion arises  
through the New Calendar  
This year the four  
Subjects are English  
and one of History  
Political Economy  
Philosophy  
Religious Knowledge.

October 14th, 1914

Dr. Stowe Gullen,  
461 Spadina Avenue,  
Toronto.

Dear Dr. Stowe Gullen:

I have seen the Superintendent of Education with regard to difficulties that have emerged through the introduction of our new pass course, subjects of which are necessary in the honour courses of those who look for specialists' certificates. Your niece is looking for a specialist certificate in Household Science and hers is one of these courses. I would advise her to continue to take what she can get according to the time table. We hope to have a favourable decision from the Department before long. I think they understand the impossibility of our meeting all the demands of each of their specialist courses.

Yours sincerely,

President.

CORONA MILLS

Toronto, 191

In old Calendar  
past subjects ~~will~~  
English and two of  
German  
French  
History & Philosophy.

Mr. Rubner states that  
third year students of H. S.  
following the old Calendar  
but unfortunately <sup>they</sup> cannot  
attend lectures in French  
German or Philosophy  
because the hours  
allotted for these subjects  
conflict with the present  
time table — I promised  
my niece & some of the

co-workers to make  
an effort - towards a  
solution -

Love were, correct -  
My niece, Hilda is  
taking the honours course  
& was supremely dis-  
gusted that her Aunt  
thought differently?  
Knowing that the  
question is in com-  
petent hands

I remain  
Yours sincerely  
Augusta Stowe Fuller
